

PDCA V1.0

Application

Source	Version	Status	Date
PDCA	V1.0.0	RELEASED	2019-07-08

The provided example Application is usable by default for Linux operating system and Siemens CP16xx (CP1616/CP1604) with IO-Base interface (corresponding wrapper included) as PROFINET controller.

The provided OS Adaption template can be used to implement Application functionality for other operating systems.

OS adaption
